

#	Where	What	To do, suggestions
1	Chromatic scales with flats Db, Eb, F, Gb, Ab, Bb, B	When “Extensions” is on, there is an extra extension “m”	Remove the m
2	Chromatic scales in relative mode	Relative names are consistently erroneous and we could not think of a fix (it's a wicked problem: fix one and you get new problems elsewhere). For example, in A, it should start DO DI RE (now DO RA RE).	Suggestion: Remove relative names for all chromatic scales – or perhaps better, if possible: deactivate the checkbox option Relative for all chromatic scales.
3	In scales that have Gb	In extended mode and when “Romance” notation is on, the staff lines are not continuous: they shift noticeably at Gb	Align
4	In the relative mode in natural minor, harmonic minor, Phrygian and Locrian	LE and sometimes SE (in Locrian) are in the right places but have wrong names	<b>Natural minor</b> should always be DO RE ME FA SO LE TE <b>Harmonic minor</b> DO RE ME FA SO LE TI <b>Phrygian</b> DO RA ME FA SO LE TE <b>Locrian</b> DO RA ME FA SE LE TE
5	Minor blues	Some sharps/flats do not follow the minor blues logic	The formula should always be 1 b3 4 #4 5 7 For example: C Eb F F# G Bb
6	Video player	Text: small typo (one “r” missing in “currently”) + maybe remove “YouTube” as it is not available in all countries. URL should be with uppercase letters everywhere, also on the tab header...	Like this:  Enter the URL for any video or playlist you want to use with Notio, then press Enter. You are currently watching:
7	Video player	Font for the instructions a bit small	As large a font as is possible (for people with middle-aged eyes :))

## Screenshots

#3

A screenshot of a digital music application interface. At the top, there are buttons for 'piano' (selected), 'A Maj La 11', 'Eb' (selected), 'Major (Ionian)', and 'treble'. Below these are tabs for 'Show keyboard', 'Extended Keyboard', 'Sound', 'Notation', 'Root', 'Scale', 'Clefs', and 'Video'. The 'Notation' tab is active, showing a musical staff with notes. Two specific notes are highlighted with blue circles: the first note (a note with a vertical stem) and the second note (a note with a horizontal stem). The notes are labeled with their corresponding musical names and accidentals.
